

AUTORALLI.EE / DIGITAL-FIRST SYSTEM

BRAND GUIDELINES

VERSION 1.0

SEPTEMBER 2026

BUILT FROM THE SUPPLIED CHAMPIONSHIP MARK

THE IDEA AT SPEED

NATIONAL PRIDE, IN MOTION.

The supplied mark already contains the system: Estonia's blue, black and white; the unmistakable rhythm of a chequered flag; and a forward lean that signals momentum.

CREATIVE NORTH STAR

Make every touchpoint feel precise, fast and unmistakably Estonian.

WHAT THE BRAND MUST DO

A championship identity that works equally well for first-time fans, active competitors, officials, media and partners.

01

PRECISION

Timing, rules and results feel exact. No visual ambiguity.

02

MOMENTUM

Layouts lead the eye forward. Energy never becomes noise.

03

ACCESS

Newcomers understand what to do next; experts reach data fast.

04

PRIDE

The Estonian origin is present without becoming decorative folklore.

PURPOSE

Bring the whole Estonian rally ecosystem into one clear, compelling digital home.

ONE MASTER IDENTITY

The championship mark leads. The website, rounds and content modes sit beneath it.

NAMING RULE

Use the full championship name in public-facing first mentions. “ERC” alone can be ambiguous outside owned Estonian contexts. Autoralli.ee is the destination, not an addition to the logo lockup.

RECOMMENDED META TITLE

Autoralli.ee | Estonian Rally Championship

THE MASTER LOGO

FLAG MARK

CUSTOM WORDMARK

NON-NEGOTIABLE

Always place the supplied vector master. Never rebuild the lettering, redraw the mark or alter the blue-to-black relationship.

A RESPONSIVE IDENTITY

The full lockup leads whenever space allows. The flag mark takes over only when legibility demands it.

DESKTOP

Full master logo

TABLET

Full master, reduced

MENU

MOBILE

Flag mark only

CONTEXT RULES

- Desktop navigation: full logo, left aligned.
- Mobile sticky bar: flag mark; show the full lockup in the menu and footer.
- Favicon, app icon and social avatar: flag mark only.
- Race Mode: use the reverse color version on near-black.

DO NOT CREATE A NEW AUTORALLI.EE MARK

Keep Autoralli.ee as a clean typographic product name. A competing domain logo would dilute the championship identity and make headers harder to scan.

SPACE MAKES IT FAST

MINIMUM SIZE

FULL LOCKUP

260 px digital

55 mm print

FLAG MARK

28 px digital

8 mm print

SMALL-SCREEN RULE

If the full name becomes hard to read, switch to the flag mark. Never shrink past the limit.

X equals the height of one checker tile in the flag mark. Keep at least X clear on every side.

BACKGROUNDS & MISUSE

APPROVED

NEVER

On photography, add a calm light or dark scrim first. The logo is never used as a decorative pattern or cropped texture.

THE CORE PALETTE

CHAMPIONSHIP BLUE

#0D71B8

RGB 13 / 113 / 184

CMYK 93 / 39 / 0 / 28*

TRACK BLACK

#0A0A0A

RGB 10 / 10 / 10

CMYK 0 / 0 / 0 / 96*

SNOW WHITE

#FFFFFF

RGB 255 / 255 / 255

CMYK 0 / 0 / 0 / 0

SUPPORTING SURFACES

MIST

#F4F6F8

LINE

#D8E0E7

SLATE

#52606D

MIDNIGHT

#06121C

* CMYK values are conversion starting points. The supplied PDF defines RGB/ICC color, not a Pantone spot color; approve a physical print proof before production.

Digital standard: normalize the source artwork's one-step blue rounding difference to #0D71B8.

COLOR HAS A JOB

STANDARD MODE

CALM. EDITORIAL. OPEN.

60% light / 25% black / 10% blue / 5% line

RACE MODE

FOCUSED. DENSE. LIVE.

68% midnight / 20% slate / 10% blue / 2% live

FUNCTIONAL COLORS

LIVE / URGENT

CAUTION

CONFIRMED

INFORMATION

Red is reserved for active live states, urgent safety information and destructive actions. Amber always uses black text.
Never use functional colors as general decoration.

BLUE / WHITE 5.16:1

BLACK / WHITE 19.80:1

TYPE THAT KEEPS PACE

DISPLAY

BARLOW CONDENSED

Bold / Black

STAGE STORIES
START HERE

Headlines, hero moments, round names

UI + BODY

INTER

Regular / Medium / SemiBold

Clear at every speed.

Navigation, articles, labels, controls

TIMING + DATA

IBM PLEX MONO

Medium / SemiBold

+00:04.7

Results, split times, codes, clocks

Production font stacks: Barlow Condensed / Arial Narrow / sans-serif · Inter / Arial / sans-serif · IBM Plex Mono / ui-monospace / monospace

Use the display face sparingly. The custom logo remains the most distinctive typography on the page.

HIERARCHY BEFORE HYPE

ROUND 03 / PREVIEW

THE ROADS CHANGE. THE TARGET DOESN'T.

Everything competitors and fans need before the next start: timetable, maps, entries and spectator information.

VIEW EVENT

12 SEP 2026 / 09:00 EEST

DIGITAL TYPE SCALE

DISPLAY	72 / 72	Barlow Condensed Black
H1	48 / 52	Barlow Condensed Bold
H2	32 / 36	Barlow Condensed Bold
BODY	17 / 26	Inter Regular
META	12 / 16	Inter SemiBold, uppercase

Use tabular numerals for times and standings. Uppercase belongs to short labels, never long paragraphs.

ONE DIRECTION: FORWARD

01 / THE 19° CUT

Use for image crops, active tabs, section transitions and primary calls to action.

02 / CHECKER MODULE

Use the rhythm as a compact signature, not as wallpaper. Keep at least 50% breathing room.

03 / SPEED RAILS

Thin directional rules organize progress, split times and selected states.

USE ONE STRONG SIGNAL PER COMPOSITION.

Momentum, not clutter.

SHOW WHAT RALLY FEELS LIKE

PLACE + SCALE

ACTION + CONSEQUENCE

PEOPLE + PREPARATION

MECHANICAL DETAIL

AUTHENTIC

Real stages, real weather, real effort.

CLOSE

Let viewers feel gravel, breath and concentration.

COOL-NEUTRAL

Protect natural skin, car and landscape colors.

LEGIBLE

Reserve calm negative space for type and the mark.

Avoid fantasy CGI, fake speed blur, heavy HDR, generic supercar imagery and unsafe spectator behavior. Video opens with context, then closes in on action.

CLEAR AS A TIME SHEET

DIRECT

Lead with the useful fact.

ALIVE

Use active verbs and specific detail. Explain without talking down.

WELCOMING

TRUSTED

Separate confirmed facts from updates.

DO

Stage 5 is live. Follow the split times.

Specific, active, useful.

AVOID

The excitement continues - click here!

Generic, promotional, no information.

ET 5. kiiruskatse on käimas. Jälgi vaheaegu.

EN Stage 5 is live. Follow the split times.

STANDARD MODE

Before the event: editorial, inviting and easy to explore.

WHY IT WORKS

- Full mark owns the header.
- Blue identifies action, not decoration.
- One clear event pathway in the hero.
- News and championship data remain calm below.

RACE MODE

During the event: dark, immediate and operational.

14:32:08 EEST

LIVE

SS 05 ACTIVE / FIRST CAR ON STAGE

CURRENT STAGE

SS 05

18.42 KM / START 14:20

→

STAGE MAP

POS	CREW	CAR	TIME	GAP
01	K. TAMM / M. SAAR	RALLY2	42:18.6	+00.0

Example data for layout demonstration

INFORMATION ORDER

- 1 Safety notice
- 2 Live state
- 3 Current stage
- 4 Timing + standings
- 5 Media + commentary

Animation yields to legibility.
Race Mode is a tool first and
a spectacle second.

RESPONSIVE, MOTION, ACCESS

RESPONSIVE Standard / Race Mode

MOTION

Hover / focus	120-180 ms
Panel transition	180-260 ms
Mode transition	300-450 ms

Respect reduced-motion settings. Never animate timing values in a way that delays reading.

ACCESSIBILITY

- 44 × 44 px minimum touch target
- Visible 2 px keyboard focus ring
- No information conveyed by color alone
- Live updates announced without focus theft
- Text on images sits on an opaque scrim
- WCAG AA contrast for body text

KEEP THE CHAMPIONSHIP IN POLE

EVENT / PARTNER ZONE

PARTNER LOGOS

Separate identities with a rule and at least 1.5X space. Partner logos never enter the championship clear zone.

CAMPAIGN RULES

- Campaign lines may change; the logo lockup does not.
- One hero message, one action, one ownership mark.
- Sponsor visibility follows contract hierarchy, never visual improvisation.
- Keep safety, schedule and result posts visually distinct from promotion.

SOCIAL 1:1 TEMPLATE

SHIP THE SYSTEM, NOT A MOODBOARD

CORE TOKENS

```
:root {  
  --erc-blue: #0D71B8;  
  --erc-black: #0A0A0A;  
  --erc-white: #FFFFFF;  
  --erc-mist: #F4F6F8;  
  --erc-line: #D8E0E7;  
  --erc-slate: #52606D;  
  --erc-midnight: #06121C;  
  --erc-live: #D92D20;  
  --erc-caution: #F2A900;  
  --erc-success: #087A4B;  
  --erc-cut: 19deg;  
  --erc-radius: 4px;  
  --erc-space-unit: 4px;  
}
```

BUILD CHECKLIST

- Use the vector master logo
- Load the three approved font families
- Build light and Race Mode token sets
- Use the 8 px layout rhythm (4 px micro-grid)
- Keep corners technical: 0-6 px, not bubbly
- Reserve red for live / urgent states
- Test keyboard, contrast and reduced motion
- Verify the mobile mark switch below 260 px

Decision filter: does this make the championship faster to recognize and easier to use?

ESTONIAN RALLY CHAMPIONSHIP

**EVERY STAGE.
ONE PLACE.**

AUTORALLI.EE / BRAND GUIDELINES V1.0

Proposed digital-first system derived from the supplied master logo. Confirm legal naming, sponsor hierarchy and print production standards before final rollout.
